Classes are held at Spoon River College located at 324 East Randolph Street in Havana. **\*Unless noted differently.**

## **NEW! STREET PHOTOGRAPHY**

Capturing ordinary, everyday life in public spaces or life as it happens is known as street photography. It is very similar to candid photography, but the photographer documents the public space as he or she sees it. A street photographer should not just look at the popular tourist spots, but should try out some real-life scenes coupled with some behind-the-scene images. They must be observant about every little aspect around them. As soon as they see a story unfold, they should not hesitate to capture the moment. (Designed for cell phones and both Point & Shoot and SLR cameras.) Instructed by Bob Coker. Fee: \$35
